- **MISSCELLANEUOUS** : AWS - Microsoft Azure - Web Scraping - Networking - Linux - Git - Selenium - NGSX - gRPC - Onion Arhitecture - Postman
- **SOFT SKILLS** : Team worker - Organized - Adaptive - Continuous Learner

Professional Experience

Angular/.NET Internship - Arobs Transilvania (TrackGPS)

July 2023 – October 2023

During my internship in .NET and Angular, I had the opportunity to work closely with mentors and collaborate with a dynamic team. I actively participated in various aspects of software development, including coding, bug fixes, and a significant end-to-end implementation. Throughout this experience, I honed my technical skills in .NET and Angular while gaining valuable insights into the software development process. I also developed strong teamwork and problem-solving abilities, which I look forward to applying in my future career.

Programmer Support Trainee - Informal School of IT

June 2022 – November 2022

As a programmer trainee at the Informal School of IT for Python, I had the privilege of working closely with experienced mentors and immersing myself in the practical aspects of software development. During this time, I actively engaged in the following key activities and accomplishments: under the guidance of mentors, I learned to navigate the workflow and methodology of a real-world application, I played a pivotal role in improving the overall team experience.

Projects (*To portfolio for more details!*)

- *Media Galaxy Products Availability - Python*

  Efficient Python script leveraging requests and lxml for web-scraping, seamlessly extracting data from website and auto-sending updates via email.

- *WSA Web Scraping - Fullstack MERN App*

  A web scraping application built with React for the front end, Node.js for the backend, and MongoDB for data storage.

- *Quiz App - ReactJS*

  Sharpen your mind with mt React Quiz App, a sleek and interactive platform. Fast, responsive, and fun-test your knowledge on the go!

- *GymBro App- Fullstack App-Angular-ASP.NET-MongoDB (Development)*
